

## **Elizabeth Park Preschool- General Information**

**At Elizabeth Park Preschool we offer a high quality early childhood program in an environment which is safe and supportive of all children.**

We aim to build solid trusting relationships with children which support their wellbeing, confidence and sense of security and belonging. We believe that each child is an individual with unique talents, interests, strengths and needs which inform our planning and the implementation of preschool activities. We believe that children are active participants, contributors and decision makers in their own learning. Children's learning is holistic-physical, social, emotional, spiritual, creative and cognitive aspects of learning are all interwoven.

Our preschool sessions are half days, 5 days per week. Please see our session times below:
